

# EQUIPMENT & CLASSES

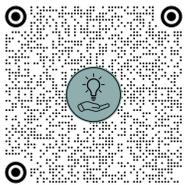

We have a variety of equipment to use in our makerspace. Training is required for using the Cricut Suite, 3D Printers, and our xTool Lasers.

Please visit our online event calendar to look for classes and workshops for training in both the makerspace and the Technology Learning Center (TLC). Once you are trained, feel free to visit the makerspace during the Open Hours posted. They vary from week to week dependent on staff availability.

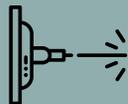

## PRINTING

We are excited to offer Poster Printing, Photo / Art Printing, and Sublimation Printing! Details on how to use this service are listed on our website.

Scan the QR Code to fill out one of the forms to start the process.

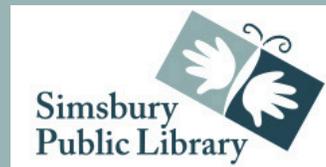

Preview our pricelist inside!
