The **Friends of the Simsbury Public Library** play a vital role in supporting the library as a wonderful cultural resource for the community by aiding in the cost of materials, equipment, and countless activities and services. When you see this **F symbol** on programs and services, it means the Friends were an integral part of making these things happen!

MAKER CLUB STARTS 4/13

Join us for the NEW Monday Maker Club, starting April 13 from 6:00 – 8:00pm. This group will foster a community of makers interested in lifelong learning and creativity. The small group will learn a variety of skills through demonstrations, collaboration, and a community-building of makers helping makers to be able to make more things in our Innovators' Workshop Makerspace. Library Staff will lead the group, starting with Amlisha, but this will not be a classroom type of learning. Amlisha will focus on one project for part of the time to show the group how to use that week's equipment and supplies.

To participate, you will need to register in advance and fill out our Liability Waiver. For the time being, you may register for multiple weeks, but may be asked to give others a chance if the group fills up over time. There will be a Waitlist and we will monitor registrations to ensure everyone gets a chance to participate. We appreciate your understanding and flexibility!

COMING SOON... MAKERSPACE KITS

We will be introducing creative kits for our makerspace!

Some will be hand crafts that you can make in the makerspace or take home to craft. Other kits will give you step-by-step guidance to create a project using the equipment. For these projects, we'll have staff on-hand to troubleshoot and answer your questions.

Stay tuned for more details!
